Learn to type with Touch Typist
the British made typing tutor from Sector Software
Suitable for adults and children from 8 to 80 alike

Only £20 Including UK P/P

Speed up your computer use, save time and effort, become more efficient and even more employable by learning how to type correctly. Join hundreds of thousands of people who have learnt how to type with Touch Typist typing tutor and you will learn a skill that will change your life.

Touch Typist, which has been on sale for over 16 years on various computer platforms, has now been completely rewritten for computers which use Microsoft Windows.

Touch Typing is a skill that anyone can learn. It is the ability to type without looking at the keyboard and without any conscious thought of the process of typing, it's almost as if your fingers are working on their own as you simply think of the words. Being a touch typist allows you to work quickly while allowing you to concentrate on what you are doing rather than hunting for keys. Being able to touch type makes you look like an absolute professional as your fingers fly over the keyboard at lightning speed while you are looking elsewhere.

Touch Typist is a computer aided learning package which provides you with the tuition, the practice material, and plenty of feedback on your progress as you learn what could be one of the most beneficial and time saving skills you will ever learn. When you have learnt to touch type, you will save time and effort every time you use any computer or typewriter keyboard.

Touch Typist has been written by a highly experienced college tutor following both BECTA and BDA guidelines. The design covers as many of the FENTO standards as can be applied to software, this ensures that Touch Typist is suitable for all learners and that, when using Touch Typist, learning is fast and enjoyable in both software led or student led learning modes.

Generous educational and site licence discounts are available. Full details including prices are on the Touch Typist website at www.typingtutor.co.uk or contact us to discuss your requirements. Further copies of this leaflet in PDF format and our site licence cost calculator in Excel format may be downloaded from our website if required.

If you have any questions please feel free to contact us.

The comments below are quoted directly from magazine reviews of previous versions of Touch Typist

"Touch Typist is a well presented and useful utility which includes the professional polish of good quality software."

"It's great value for money and, compared with Mavis Beacon® and Intellitype® (it's closest rivals), it's a lot more straightforward and rewarding to use."

"Very user friendly, Gives a sense of achievement, Straightforward lessons, Flexible lesson plan, Covers all levels of ability."

"Touch Typist is a fine piece of software which achieves what it sets out to be."

"Touch Typist operates smoothly and at an impressive speed."

"There are no fluffy distractions like car racing games or other frippery."

"As a program, Touch Typist is great. Even the hardened journos around the office clamoured to test their dexterity against the machine (and quite a few had little to boast about)"

"It is well written, extremely user-friendly, nicely presented and stimulating to use."

"As for features Touch Typist is almost over qualified, tremendous value for money. To improve your skills look no further than Touch Typist."

Touch Typist has a RRP of £25, but because you are dealing directly with Sector Software, the authors of Touch Typist, we ask just £20 which includes UK postage and packing. All orders are despatched within 24 hours of receipt.

For site licence orders, we operate a free annual upgrade service for two years from the date of purchase, full details on request.
